

Michigan State University YCC Battle of the Chemistry Clubs Event Form 2013

Event - Overview							
Name of the Event*	YCC Battle of the Chemistry Clubs						
Brief Description*	The BCC is an all-day event in which undergraduate chemistry clubs from area universities compete in events testing their chemistry knowledge and techniques. This year 11 teams competed in a calculation relay, a safety related dance-off, periodic table hangman, and a bomb calorimeter lab in the morning with a Spec20 challenge and an organic unknown ID challenge for the play-offs . All day we had a scavenger hunt to familiarize students with famous chemists. The final round was Jeopardy!						
Organization*	Michigan State University

Event - Evaluation

Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	10
What were the greatest successes of this event?	So You Think You Can Safety Dance was such a hit that many competitors hoped to have a faculty dance off. More teams stayed to watch the Jeopardy! final this year possibly due to the increased number of awards. Locating the event at Michigan State University allowed for greater control of the event in case of mishap and also provided a more central location to all Michigan universities.
Lessons Learned/Suggestions to improve this event	We had three universities from Ohio that registered for the BCC, but all three were unable to come. While this was due to different reasons, some beyond our control, a later start time or an earlier registration period may help us expand our event to reach a larger area.
Share this event with other local sections and technical divisions.	<input type="checkbox"/>

Event - Narrative and Nomination

No award(s) are nominated for this event.

Event - Evaluation

Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	10
What were the greatest successes of this event?	We collected a large amount of items due to the high participation.
Lessons Learned/Suggestions to improve this event	While many people participated, the competition aspect has become routine. If we can identify a new way to encourage participation, we may get a more varied group of people donating.
Share this event with other local sections and technical divisions.	<input type="checkbox"/>

Michigan State University YCC Graduate Orientation Breakfast Event Form 2013

Event - Overview							
Name of the Event*	YCC Graduate Orientation Breakfast						
Brief Description*	An omelet breakfast for incoming graduate students was provided during orientation week to introduce them to the Younger Chemists Committee and our role within the department and in the community. We also gave the incoming students a chance to socialize with each other and upper level graduate students. In addition, we provided staff and faculty throughout the department with omelets to show our appreciation for their work and the assistance they provide to the YCC.

Michigan State University YCC Scout Merit Badge Day Event Form 2013

Event - Overview							
Name of the Event*	YCC Scout Merit Badge Day						
Brief Description*	During this event, both boy scouts and girl scouts (Cadettes, Seniors, and Ambassadors) participated in activities to help them earn their Chemistry badge. The events included experiments on pH, separations and mixtures, making Cartesian divers, and discussing electrochemistry. Scouts also participated in a poster presentation about the chemicals found in their homes.

What were the greatest successes of this event?	Troops from around the state were enthusiastic about having this event again and the opportunity to come into the labs. Both parent volunteers and scouts were thrilled to be able to complete the badge all in one day, with a little pre-assigned work at home and expert guidance from graduate chemists.
Lessons Learned/Suggestions to improve this event	Only three girl scouts participated in the event despite widespread interest. Perhaps advertisement with the local council, which must be organized at the beginning of the calendar year, would improve turnout among girls. Also, while everyone was fed, we ran out of food completely. Moral of the story, overestimate how much teenage boys can eat.

Michigan State University YCC A/P Lab Visit Event Form 2013

Event - Overview							
Name of the Event*	YCC A/P Lab Visit						
Brief Description*	Local high school students visited the analytical/physical chemistry labs and had a few hours to perform experiments on various analytical instruments. The general chemistry experiments were conducted with groups of 2-3 students by chemistry department graduate students and professors using fluorescence, atomic absorption, ICP-OES, XRF, GC-MS, FTIR-ATR, GC-FID, HPLC, XRD, NMR, and Uv-Vis spectroscopy.

What were the greatest successes of this event?	The students learned how to use each instrument, and then taught the other students about the instrument they used and what experiment they conducted. Everyone learned in depth about one individual instrument, and broadly about the other 10 instruments we had available.
Lessons Learned/Suggestions to improve this event	The high school group ran a bit late at visiting the National Superconducting Cyclotron Laboratory before coming to the chemistry building, so I would recommend leaving a bit more buffer room between activities for the next group that visits.
Share this event with other local sections and technical divisions.	<input type="checkbox"/>

Michigan State University YCC Chemistry Caravan Event Form 2013

Event - Overview							
Name of the Event*	YCC Chemistry Caravan						
Brief Description*	The MSU YCC volunteered in local elementary schools, discussing what it means to be a scientist, what our daily roles were, and various topics that scientists study. In addition, we paired our knowledge of chemistry with fun demonstrations to illustrate various scientific properties and theories. We aimed for these demonstrations to cover topics that were relevant to their science curriculum and allowed for hands on learning.

Event - Narrative and Nomination

No award(s) are nominated for this event.

Event - Evaluation

Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	10
What were the greatest successes of this event?	The greatest success of the event was the way the elementary students received the discussion and demonstrations the MSU YCC put forward. Students were actively engaged asking questions and participating in hand on learning- and they were excited to do so.
Lessons Learned/Suggestions to improve this event	The YCC hopes to reach more elementary classrooms and tailor the demonstrations to coincide with curriculum.
Share this event with other local sections and technical divisions.	<input type="checkbox"/>
